If Varga wins Saturday, the bout with Mady will be for the North American title. If not, he still be vying for a Canadian belt.

In order to prepare for war in early June of the National Students Badminton Championships, the badminton team has begun a new round of tension before training camp. Another title, by the Wuhan University School of Journalism and Communication graduate of concern that the Olympic torch.

Yesterday, with the Olympic Cajianerguo

Nine-year-old started

Yang Zhen has been reached today is the 15th year. For him, playing badminton is purely a coincidence. I am a small time in poor health, coupled with his father in itself is playing basketball, so I hope to play basketball, enhanced physique. s Basketball team at that time can be as long as older children, and make the nine-year-old I had to practice badminton. Accidental, it seems is a necessity, Yang Zhen chose badminton, badminton also selected him. 15 years, the ups and downs, Time flies, has been around as early as Wushirenfei, but always the same, has been buried deep in his heart of the Olympic badminton feelings and dreams.

10 years ago, Yang Zhen, who have the opportunity to participate in the Olympic another way, that is, as an athlete, in the badminton stadium, winning glory for the country. At that time, he was only 13-year-old boy Mengdong, the province won the Badminton Championship in a very good place. Because quite some talent, Ti Gongdui coach to be taken, selection to the province to participate in professional training. Six months of training over the life of Tan Zhi, Yang Zhen level of the sport by leaps and bounds, have become a professional athlete s condition. However, fate has in his possession a change in his life were a joke - to positive medical examination when he was diagnosed with congenital bone adhesion. This is a Niangtai, has drawn the Binggen, connect ordinary people of the Fifth spine and pelvic ligament in his body became calcified cartilage, and continue the hardens. If, like ordinary people, like learning the normal work of this illness on his life do not have the slightest impact. If we can become professional athletes, carry out the training exercise, then it must bear the risk of serious injuries and even paralysis. Parents in the treatment and repeated again and again balance, Yang Zhen regret to bid farewell to the road to professional athletes, but also to bid farewell to stand on Olympic dream.

Today a further period of the Olympic torch margin

I remember the first Olympic Games, in Barcelona in 1992. At that time, I have only eight years old, the TV screen, dressed in traditional costumes of the ancient Greek disabled athletes archery, but the main torch of the scene, I Are still fresh in my memory.

Since the beginning of training to participate in badminton, on behalf of the motherland at the Olympic arena has become Yang Zhen greatest wish. 13-year-old when the incident changed his sports career path, Yang Zhen lost the opportunity to work together with the Olympic Games. But 10 years later, it seems that he is God kind of sports to uphold and perseverance, Yang Zhen himself to the unexpected participation in the Olympic identity and become the glory of the Olympic torch.

The first time was informed that the torch to be the official candidate of the news, in last year s summer vacation. I was not surprised by the

statement table, repeatedly shouted Zhenbi inadvertently let the passersby who mistakenly thought that I was a baffling the madman. Get The good news, emotional Yang Zhen calls one after another phone, then spread the good news in the moment of his life circle. All the friends and family, and together with him, filled with his Olympic dream is about to realize the happiness of. Even today, when we talked about the Olympics and he, on the torch, he talked about the badminton, I can still feel from the bottom of my heart that he s excited and proud.
