

The 20 Biggest Athlete Sex Scandals

The news that Steelers quarterback Ben Roethlisberger is once again in trouble for his actions off the field got us thinking about what some of the most outlandish and popular sexcapades by athletes have been through the years.

Athletes have too found often been caught with their hands in the cookie jar, but only these 20 came out on top as having the most unbelievable, confusing, and sometimes wrong and illegal acts.

By 1998, Shawn Kemp's days as one of the most electrifying dunkers in the NBA were near over. He would spend the next five seasons hanging on to different rosters and trying to earn paychecks.

It turns out there was good reason. The "Reign Man" was the father of seven illegitimate children with six different women. Holy alimony!

In 2001, Denny Neagle signed a five-year, \$51 million contract with the Colorado Rockies.

Neagle never lived up to the expectations of the contract and one night was pulled over by police during an exercise in stress management.

Neagle-who was married at the time-was found with a prostitute in the passenger seat who was in the middle of providing, uh, services.

Like the saying goes, bad publicity is better than no publicity. That is true for the LPGA Tour, which struggles to survive as a professional tour.

Well, the LPGA made headlines in 2005 when golfer Jackie Gallagher-Smith was accused by Gary Robinson, her former caddie, of being seduced simply for the purposes of impregnating Gallagher-Smith.

Since Gallagher-Smith was married at the time, Florida law decreed that Robinson-who initiated a lawsuit against his former employer-could not demand a DNA test.

Dana "Pokey" Chatman was the successful head coach of the LSU women's basketball team. Chatman led her club to four consecutive Final Four appearances.

That all came to a crashing halt in 2007 when Chatman's assistant coach outed Chatman for having an affair with a player. Chatman quit and has not returned to NCAA coaching since.

Dennis Rodman was knocked for being the NBA's most unique character in the 1990s. Rodman's bizarre actions reached a climax in 1997, when he showed up to a book signing for his autobiography *Bad As I Wanna Be* in a full-blown wedding dress.

Rodman was known for his big mouth, rainbow hairstyles, and rebounding prowess, but we added cross-dresser to the list after that appearance.

Boris Becker was bounced in an early round matchup at Wimbledon in 1999. How did he handle it?

By having an affair with a women in a broom closet of a sushi restaurant at a London hotel. The result was a baby born nine months later.

Initially Becker denied the story, but he eventually claimed ownership of the child.

Richard Seigler wasn't a common name on the Pittsburgh Steelers' Super Bowl XL-winning team.

However, Seigler could not escape the limelight when a former girlfriend accused Seigler of running a prostitution ring out of Las Vegas and living off the earnings.

The charges were dropped in March of 2008, but the damage was already done. The Steelers released Seigler shortly after the accusations, and he has since been relegated to the CFL.

Greg Oden has been much maligned for his rash of injuries that have kept him sidelined for the majority of his young career.

So how did the former first overall pick keep himself busy? By snapping nude photos of himself and sending them to a girlfriend-only to have the pictures end up all over the Internet. Whoops.

Talk about the all-time example of irony. In 1998, Eugene Robinson was awarded the Bart Starr Award for "high moral character." That distinction lasted mere hours.

The night before Super Bowl XXXIII, the former Falcons safety was busted for soliciting oral sex from an undercover police officer.
